

Learn.Invest – A VIRTUAL TRADING SYSTEM

ADMIN MANUAL

Design And Development :

Muthu Annamalai.CT & Manish Chandra C

Team: Ideas Inc

IMPORTANT: This manual is applicable only to Mode-1 of Learn.Invest application, as there is no admin in Mode-2.

Click this link to go to **Admin Login Page** of Mode-1 of Learn.Invest Application:
<http://139.59.46.171/learninvestmode1/admin.html>

Note to Admin:- The login credentials are:

Admin Username: admin

Admin Password: docs2016

Logging in to the Admin account:

The home page of the admin has a login form. Enter username and password to login. If authenticated, the user dashboard page will open with welcome message. Else invalid username or password error is displayed.

Using the features of the Admin account:

The admin dashboard page has links to various operations such as **send notifications to the user, view the sent notifications, change the prices of stocks, add/ delete a stock , view the user leader board.**

To send message to user, type in the text box of admin home page and click send button.

For viewing leader board or viewing sent notifications, click the corresponding buttons.

To add a new stock, click the button and fill new stock registration form, click add. If stock ticker already exists in the database, error would show up. Else new stock would be added.

To delete a stock, click the button and choose the ticker of stock to be deleted, and click OK. A confirmation page would show up.

To change stock price, click the button and choose stock ticker, enter the new price in INR and click OK. A confirmation page would show up.
